

Routine care has been resumed!

Here are a few things that may look different upon your next visit: - Temperatures will be taken upon entering the office. If you have a temperature reading higher than 100° F, you will be asked to reschedule. - Washing of hands prior to starting exam and picking out glasses.- Due to the nature of the exceedingly close contact required to conduct an eye examination and fit glasses (interactions can be as close as 8 inches), we are requesting that each patient wears a mask during the duration of their visit in the office. If you do not have a mask, we will be able to provide you one for use in the office.- We will be sterilizing and disinfecting surfaces, exam rooms and frames after each patient - Additional health screening questions prior to the exam - If you have a child or family member needing assistance, please limit one parent/guardian to accompany and assist. Please do not hesitate to call us with any questions or concerns. We are happy you are our patient and we look forward to seeing you all soon!
